DETAILED ACTION

1. This application claims benefit of the foreign applications:
JAPAN 2004-402064 with a filing date 12/28/2001; and
JAPAN 2002-72027 with a filing date 03/15/2002.
2. Amendment including cancellation of claims 1-48 and addition of claims 49-51 in the amendment filed on April 17, 2006, is acknowledged. Claims 49-51 are pending in the application. No new matter is found. Since the newly added claims 49-51 are commensurate with the scope of the invention, therefore, claims 49-51 are prosecuted in the case.

Information Disclosure Statement

3. Applicant's Information Disclosure Statements, filed on June 25, 2004, have been considered. Please refer to Applicant's copy of the 1449 submitted herein

Responses to Election/Restriction

4. Applicant's election of Group I claims 44-48 (i.e., now are 49-51) in the reply filed on April 17, 2006, is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)). An election of a species, i.e., the 17th compound of claim 51, is also acknowledged.

Claims 49-51 are pending in the application. The scope of the invention of the elected subject matter is as follows.

Claims 49-51, in part, drawn to compounds of formula (Ia), wherein the variable

Ar₁ represents thereof; the A ring of formula (Ia) is not substituted with 1-pyrrolidinyl, piperidino, piperazinyl, N-methyl-1-piperazinyl, N-acetyl-1-piperazinyl, morpholino, imidazolyl, 5- to 7-membered cyclic amino-sulfonyl, or 5- to 7-membered cyclic amino-carbonyl thereof; the variable Ar₂ is not substituted with 5- to 7-membered cyclic amino-carbonyl thereof, the variables R and Ar₂ or L2 and Ar₂ do not independently form a heterocycle or heteroaryl ring thereof.

Reasons for Allowance

5. The following is an examiner's statement of reasons for allowance:

Claims 49-51 are neither anticipated nor rendered obvious over the art of record, and therefore are allowable. This invention relates to preventive/remedies for urinary disturbance. The closest reference is Teuber et al. US 6,194,447, which discloses preparation of aminobenzimidazole and guanidines as novel potassium channel blocking agents, and associated devices and methods. The difference between instant claims and Teuber et al. is that the instant compounds of formula (Ia) are not found in Teuber et al. A suggestion for modification of the above reference to obtain the instant compounds has not been found. Moreover, the non-elected subject matter, i.e., A ring of formula (Ia) substituted with 1-pyrrolidinyl, piperidino, piperazinyl, has been eliminated in the amendment filed on April 17, 2006. Therefore, claims 49-51 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
